

Special Issue

Nutritional Surveys and Assessment of Unhealthy Eating Behaviors

Message from the Guest Editor

This research topic aims to explore the emerging and precise tools for evaluating the nutrition condition of people with unhealthy eating behaviors. In fact, a precise tool for nutrition assessment is recognized as the cornerstone of assessing the actual nutrition condition of people with unhealthy eating behaviors.

This Special Issue is aimed at providing selected contributions to address this topic, with a particular emphasis on how to precisely evaluate nutrition intake using innovative technologies or methods for identifying unhealthy eating behaviors. Potential topics include, but are not limited to, the following:

- Innovative methods employed for nutrition surveys and assessments;
- How to identify unhealthy eating behaviors using innovational technologies;
- Comparison of dietary survey methods with traditional and emerging tools;
- Selection of dietary evaluation methods for different populations;
- Dietary pattern transition and its relationship to the development of chronic diseases.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
