

## Special Issue

# The Relationship between Nutrition, Microbiota and the Gut–Brain Axis

### Message from the Guest Editor

This Special Issue delves into the expanding field of gut microbiome modulation, featuring a curated selection of review and original research articles. The focus extends to the diverse role of microbial and human metabolites in influencing the microbiota–gut–brain axis concerning health, behavior, and diseases. Beyond a broad exploration, this Special Issue aims to identify specific pathways, molecules, or mechanisms that offer insights into precision medicine and precision nutrition. The goal is to pave the way for future complementary nutrition therapies that address the intricate relationship between nutrition, the microbiome, and the gut–brain axis.

### Guest Editor

Dr. Monica Barone

Human Microbiomics Unit, Department of Medical and Surgical Sciences, University of Bologna, 40138 Bologna, Italy

### Deadline for manuscript submissions

closed (5 January 2025)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
