# Special Issue

# The Benefits of Prolonged Fasting: Improving Health Beyond Weight Loss

# Message from the Guest Editor

We are pleased to announce the launch of our Special Issue, which examines the multifaceted health benefits of prolonged fasting protocols beyond simple weight loss. Existing clinical studies report a reduction in body weight of approximately 7%, with the concomitant preservation of muscle function and specific alterations in lipid metabolism, including optimized lipid trafficking and enhanced insulin sensitivity. Additional findings include improvements in clinical parameters such as glycaemia, insulinemia, blood pressure, and inflammatory markers. We invite contributions to bring together original research articles, systematic reviews, and expert commentaries that critically evaluate the underlying mechanisms and clinical implications of prolonged fasting. By integrating clinical data with mechanistic studies, the contributions offer a comprehensive assessment of how prolonged fasting may serve as a therapeutic strategy for metabolic disorders and age-related conditions. The aim is to provide a balanced and evidence-based discussion that informs future research and clinical applications in this emerging field.

# **About the Journal**

## Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

#### **Editors-in-Chief**

### Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
   University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
   Preventive Medicine Service, Centro Hospitalario Universitario
   Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las
