# Nutritional Aspects of Immunometabolism in Health and Disease

## Message from the Guest Editors

Research into immunonutrition has been undertaken since the 1980s in relation to exercise. Around this time, it became important to address the effects of exercise on athletes in terms of the immune system and inflammation, particularly in athletes undertaking prolonged, exhaustive exercise. Since then, many studies have investigated various aspects of immunonutrition, and also nutritional supplements, specifically in relation to exercise-induced immunodepression. In recent years, immunometabolism has become increasingly interesting and more widely researched, not least in innate immunity. In terms of the way in which immune function responds to various challenges, current research is investigating whether this response can be modified to be more effective by manipulating the metabolism of cells such as T-lymphocytes, neutrophils and macrophages. This series aims to investigate similarly the role that some nutrients may have, in both health and disease, on immunometabolism.

## **About the Journal**

## Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### **Editors-in-Chief**

## Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
   University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
   Preventive Medicine Service, Centro Hospitalario Universitario
   Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las
