

Special Issue

Japan National Health and Nutrition Survey

Message from the Guest Editors

We would like to invite you to submit manuscripts to this Issue entitled “Japan National Health and Nutrition Survey”. We would like to invite you to contribute a manuscript that provides insights into this nationally representative survey with a history of more than 75 years. We welcome manuscripts that apply the survey results for analyses, as well as those focusing on survey management, data quality control, or current issues.

The Japan National Health and Nutrition Survey (NHNS; formerly the National Nutrition Survey) has been conducted every year in Japan from 1945 to 2019. Since its inception, it has been continually revised in order to focus on the public health issues of the time, which is the unique characteristic of this survey.

This Issue will accept manuscripts describing observational studies applying the NHNS data for analyses. Historical studies and trend analyses are welcome, as well as studies proposing new methodologies for conducting national dietary surveys during the pandemic.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
