

## Special Issue

# Associations Between Eating Patterns and Risk of Metabolic Dysfunction-Associated Steatotic Liver Disease

### Message from the Guest Editor

This Special Issue will highlight studies examining the link between eating patterns and the risk of metabolic dysfunction-associated steatotic liver disease (MASLD), the most common chronic liver disease worldwide. Alongside obesity and type 2 diabetes, the prevalence of MASLD has increased considerably over recent decades, driven by a complex combination of intrinsic and extrinsic factors, including diet- and nutrition-related risk factors. For this Special Issue, we invite the submission of original research articles how various aspects of diet, nutrition, and eating patterns—including the composition, timing, and frequencies of meals, as well as relative adherence to specific dietary patterns—may affect the onset and progression of MASLD. A better understanding of the role of modifiable, dietary risk factors in the pathogenesis of MASLD could help to guide more effective disease prevention strategies and inform dietary interventions for those at risk of, or living with, MASLD.

### Guest Editor

Dr. Catherine Cohen

Lifecourse Epidemiology of Adiposity and Diabetes (LEAD) Center,  
Colorado School of Public Health, University of Colorado Anschutz  
Medical Campus, Aurora, CO, USA

### Deadline for manuscript submissions

15 August 2026

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
