

Special Issue

The Role of Nutrition and Lifecare on Malnutrition

Message from the Guest Editor

This Special Issue of *Nutrients*, entitled "The Role of Nutrition and Lifecare on Malnutrition", encourages researchers to submit articles that investigate the influence of nutrients on appetite and nutritional status, the effectiveness of dietary modification options, the suitability of thickeners used in daily practice, and new eating and feeding self-monitoring tools. Articles in the field of dementia and dysphagia are particularly welcome, in addition to literature reviews, articles that analyze new nutritional supplements and eating (feeding) strategies for dementia patients with malnutrition, and studies that discuss the ethical aspects of the artificial feeding of a patient suffering from advanced dementia.

Guest Editor

Prof. Dr. Gytė Damulevičienė

Clinical Department of Geriatrics, Lithuanian University of Health Sciences, 44307 Kaunas, Lithuania

Deadline for manuscript submissions

15 December 2025

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
