

## Special Issue

# Mediterranean Nutrients and Oils

### Message from the Guest Editors

The Mediterranean diet is characterized by high intake levels of fruit, vegetables, olive oil, whole grains, legumes, and blue fish, with restrictions on red meat and dairy intake, moderate but regular consumption of red wine, and low consumption of manufactured foods including sugar-sweetened foods and drinks. It is considered one of the healthiest diets for health and longevity. This Special Issue of *Nutrients*, entitled *Mediterranean Nutrients and Oils*, aims to provide the latest evidence regarding the impact of the Mediterranean diet and its nutrients and oils on human wellbeing and health. We hope to receive articles from outstanding experts on this topic. Both original epidemiological studies on humans and original articles on cell and animal models, as well as review articles providing insight into the physiology and molecular benefits of the Mediterranean diet and its bioactives, are welcome.

### Guest Editors

Dr. Adil El Midaoui

1. Department of Pharmacology and Physiology, Faculty of Medicine, University de Montréal, Montreal, QC H3T 1A8, Canada
2. Faculty of Sciences and Techniques, Errachidia, Moulay Ismail University of Meknes, Meknes 50050, Morocco

Dr. Gérard Lizard

Team "Biochemistry of the Peroxisome, Inflammation and Lipid Metabolism", Université de Bourgogne, 21000 Dijon, France

### Deadline for manuscript submissions

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
