# Special Issue

# Nutritional Support, Dietary Strategies and Exercise on Bone and Muscle

# Message from the Guest Editors

Bone and muscle tissues are crucial for overall wellbeing across one's lifespan. There is a close relationship between nutrition, exercise and bone and muscle health that can impact overall quality of life. From a nutritional point of view, macro and micronutrients (i.e., vitamins and minerals) are closely related to bone and body composition. Moreover, by modifying the type or intensity of exercise as well as with different nutritional strategies, bone and muscle health can be significantly altered. This Special Issue explores the relationship between nutrition, exercise and bone and muscle health, with the aim of determining and explaining the basis for dietary strategies, nutritional support or exercise that are related or may impact bone and muscle health in different types of populations. This Special Issue invites submissions on topics including epidemiology, clinical trials, observations, and systematic reviews and meta-analyses. Submissions of new findings from current work on nutrition, dietary strategies and exercise that can provide insightful perspectives on bone and muscle health are welcome.

## **Guest Editors**

Dr. Rubén Fernández-Rodríguez

Health and Social Research Center, University of Castilla-La Mancha, 16071 Cuenca, Spain

Dr. Ana Torres-Costoso

Nursing and Physiotherapy Faculty, Universidad de Castilla-La Mancha, Ciudad Real, Spain

## Deadline for manuscript submissions

closed (5 October 2024)

# **About the Journal**

# Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### **Editors-in-Chief**

# Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
   University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
   Preventive Medicine Service, Centro Hospitalario Universitario
   Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

#### Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### **Author Benefits**

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.
