

Special Issue

Newborn Nutrition

Message from the Guest Editor

Good nutrition in the earliest stages of fetal development, at birth, and through infancy, is essential for survival, physical growth, mental development, and health. Newborn nutrition and early childhood stimulation interventions represent part of an integrated life-cycle approach to prevent communicable and noncommunicable diseases. This Special Issue “Newborn Nutrition” aims to publish original research articles and reviews of the scientific literature in order to explore the latest findings on nutrition in term and preterm babies, to consider the role of newborn nutrition as key determinants of well-being across the entire lifespan, and to propose novel nutritional interventions to prevent chronic diseases.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
