

## Special Issue

# Inflammation- An Ancient Battle. What are the Roles of Nutrients?

### Message from the Guest Editor

Inflammation is the underlying cause for many chronic diseases including cardiovascular disease, obesity, osteoporosis, sarcopenia, and neurodegenerative diseases. However, a certain level of inflammation is considered by some to be a protective response, and can be important for healing; by the same token, low-grade, chronic inflammation leads to the development of insulin resistance, CVD, hyperlipidemia, and many other health risks. For instance, the typical western diet is high in sugar and fat, and the ratio of Omega-3 to Omega-6 fatty acids; this unfavorable tilt in the ratio can lead to chronic inflammatory responses, obesity, and thus disease. The objective of this proposed Special Issue is to publish selected papers detailing specific aspects of nutrition that could play a role in decreasing inflammation and inflammatory response. Particularly, papers dealing with the role of specific nutrients and non-nutritional substances present in food regarding chronic diseases that are caused by or associated with inflammation, both chronic and acute. Dr. Bahram Arjmandi

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
