

## Special Issue

# Nutrition and Aging - Featured Perspectives on Health and Metabolism

### Message from the Guest Editors

In this Special Issue, “Nutrition and Aging - Featured Perspectives on Health and Metabolism”, we will present the current research approaches in nutrition research, which aim to better understand both the pathophysiology of nutrition-related diseases, their consequences and therapies. There will be a particular focus on nutrition in older people, in interaction with health and health-related factors, as well as metabolism.

The association of lifestyle and nutrition with health or diseases, as well as dietary regimens in advanced age, role of micronutrients, influence of the nutritional status on therapeutic success, and relevance of teaching and counselling for a healthier society, are highly welcome topics for this issue. We will also accept narrative reviews and systematic/meta-analyses.

---

### Guest Editors

Prof. Dr. M. Cristina Polidori

Prof. Dr. Cornel Sieber

Dr. Anna Maria Meyer

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
