Impact of Different Nutrition Strategies on Patients with Inflammatory Bowel Disease (IBD)

Message from the Guest Editors

This Special Issue entitled “Impact of Different Nutrition Strategies on Patients with Inflammatory Bowel Disease (IBD)” aims to examine the effects of different nutrition strategies on patients with Crohn’s disease, ulcerative colitis, and irritable bowel syndrome. Specifically, nutrition strategies are utilized as a way of prevention, remission, and treatment on patients with IBD. However, numerous patients follow different kinds of nutrition plans on a daily basis without knowledge of their possible effects on the disease. As a result, an exacerbation of the disease symptoms is observed, affecting patients’ quality of life. Thus, we call researchers to contribute to a scientific topic which needs further guidance for patients with IBD.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
