Special Issue Nutrition and Microbiome

Message from the Guest Editor

Recent research documented that the human gut microbial distribution plays a role in diabetes, metabolic syndrome, and obesity. Dysbiosis, or derangements in the microbiota composition, has been associated with altered energy homeostasis, fermentation pathways, and metabolic dysregulation. Furthermore, recent advances in genomics and metabolomics have enabled the identification of several microbiota species and shed new light on microbe research. These advances link the diet, nutrient composition, and gut microbiome interactions. As such, the altered microbiome-host interactions may play a role in inflammation, insulin resistance, cardiometabolic risk, and diabetes. In this Special Issue, we would like to address the microbiome, gut microbiota-host interaction, microbiome genomics, microbiome health, prebiotics, and probiotics, and their impact on diabetes, metabolic diseases, and obesity.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peerreview and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluis Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain

 Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
