Nutritional Support in Digestive Diseases, and Nutritional Implications of Dietary Interventions

Message from the Guest Editors

Nutritional health may be compromised in patients with gastrointestinal (GI) disorders. It can occur due to inadequate intake, malabsorption of nutrients, loss of protein through the gastrointestinal tract, and increased energy expenditure. We analyze the “causes and consequences of digestive diseases on nutritional status”. In this Special Issue, we will explore the most current and modern management of malnutrition in hospitalized patients with gastrointestinal, hepatic, and biliopancreatic disorders. Nutritional screening and assessment help identify individuals at nutritional risk and guide therapeutic interventions. We will show the tools for a correct nutritional diagnosis in different contexts and the basis of enteral and parenteral nutrition, access devices, formulations, and associated complications with both modalities of nutritional support. Finally, we will give special consideration to the nutritional consequences of different dietary interventions in a wide variety of gastrointestinal conditions, including eosinophilic esophagitis, food allergies and intolerances, gluten-related disorders, inflammatory bowel disease itself, and irritable bowel syndrome.

Guest Editors

Prof. Dr. Miguel Montoro

1. Gastroenterology, Hepatology and Nutrition Unit, University Hospital San Jorge, 22004 Huesca, Spain
2. Director of the Postgraduate Program on Nutrition and Digestive Diseases, Department of Medicine, Faculty of Health and Sport Sciences, University of Zaragoza, 22002 Huesca, Spain
3. Aragon Health Research Institute (IIS Aragón), 50009 Zaragoza, Spain

Prof. Dr. Alberto Lue

Service of Digestive Diseases, University Clinic Hospital Lozano Blesa, Institute for Health Research Aragón (IIS-Aragón), Zaragoza, Spain

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
