# Special Issue

# Nutritional Strategies for Perioperative Patients

## Message from the Guest Editor

The Special Issue aims to highlight the critical yet often underrecognized role of nutritional management before, during, and after surgery. Surgical outcomes depend not only on the technical procedure but also on the patient's metabolic and nutritional reserve. Patients with compromised nutritional status, such as malnourished or obese patients, tend to experience worse postoperative morbidity, longer hospital stays, and delayed recovery. Growing evidence supports the use of structured perioperative care models that integrate nutritional screening, individualized prehabilitation, and tailored postoperative feeding protocols. This is particularly relevant in complex cases, such as patients with renal dysfunction or oncological disease, where organ-specific metabolic demands must be considered in nutritional planning. Developing a unified nutritional framework requires bridging nephrology, oncology, surgery, dietetics, and rehabilitation. For this reason, a multidisciplinary team approach is essential, ensuring that nutrition is not overlooked but recognized as a predictive and modifiable factor that can significantly improve postoperative outcomes.

## **About the Journal**

## Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### **Editors-in-Chief**

## Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
   University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
   Preventive Medicine Service, Centro Hospitalario Universitario
   Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las
