Dietary Supplements for Human Health and Disease

Message from the Guest Editors

Chronic inflammation and metabolic disorders strongly contribute to the onset of several pathological diseases. They are characterized by complex and multifaceted conditions which can vary in location, precipitating factors, and severity, and can be related to neurologic, urologic, GI, gynecologic, and musculoskeletal-related disorders.

There is growing evidence that air pollution, drug abuse, and unhealthy lifestyles affect quality-of-life and are also related to influencing factors that promote health disorders. This can lead a significant proportion of the population to have a decline in their well-being over an extended period. Dietary supplement intake represents an essential factor in human behavior which can support overall health and well-being, and is an effective strategy in the regulation and reduction in pathological conditions.

New findings on the role played by functional food and related ingredients in human physiology and pathology, as well as their uses in potential therapeutic applications, are needed and represent a field of growing interest.

We welcome original research articles and review articles on the current state of research in this field.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
