

## Special Issue

# Mineral Nutrition on Human Health and Disease—2nd Edition

### Message from the Guest Editors

Given the success of the previous Special Issue, we are pleased to launch a second Special Issue titled “Mineral Nutrition on Human Health and Disease—2nd Edition”. This Issue will focus on studies describing the role of mineral nutrition and status in the maintenance of human health and in the etiology, management, and prevention of common chronic diseases impacting large proportions of the population. Diseases of particular interest include anemia, cancer, diabetes, osteoporosis, cardiovascular, and hypertension. Studies may include any aspect of the role of mineral nutrients that are essential to humans and the interplay between mineral nutrition and disease. Study models may include animal, human, or other pertinent approaches and may also include in vivo and in vitro approaches aimed at better understanding how changes in mineral bioavailability, metabolism, or physicochemical properties influence disease.

We aim to present novel findings in the field of mineral nutrition, focusing on optimizing human health and understanding the role of minerals in human disease. We welcome original research and reviews of the literature concerning this important topic.

---

### Guest Editors

Prof. Dr. James H. Swain

Department of Nutrition, School of Medicine, Case Western Reserve University, 10900 Euclid Avenue, SOM WG-48, Cleveland, OH 44106, USA

Prof. Dr. Salvatore Minisola

Department of Medical and Cardiovascular Sciences, “Sapienza” Rome University, 00161 Rome, Italy

---

### Deadline for manuscript submissions

15 September 2026

## About the Journal

### Message from the Editor-in-Chief

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
