Role of Prebiotics and Probiotics in Health and Disease

Message from the Guest Editor

The term “probiotic” was coined by the Noble prize winner Ilija Metchnikoff more than 100 years ago, who hypothesized that health could be enhanced and senility delayed by manipulating the intestinal microbiome with bacteria found in yogurt. The development of modern, culture-independent ways to study microbiome composition at various sites within and outside the human body has greatly enlarged our knowledge on the role of the microbiome in health and disease. However, many of these studies are descriptive and report associations rather than causality. Furthermore, there is a high demand for therapeutic strategies that utilize or target the human microbiome to prevent or treat diseases. With this Special Issue of the journal *Nutrients*, this knowledge gap should be filled by high-quality data on the effect of probiotics and prebiotics in health and disease. Dr. Vanessa Stadlbauer

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
