Nutrition Role in Bone and Muscle Health

Message from the Guest Editor

As the population ages, bone and skeletal muscle problems have an increasing impact on human health. Osteoporosis and sarcopenia not only affect the health of the skeletal system, but also affect the body's motor function, inflammatory response, immune ability, etc., and thus have a wide range of effects on cardiovascular and metabolic diseases. Among the main factors affecting bone and muscle health, nutritional/dietary factors are important modifiable factors. Nutritional factors affect bone and muscle health by providing raw materials and affecting epigenetics, oxidative stress, inflammation, and immunity. Therefore, exploring, testing, and validating the roles of nutritional factors in bone and muscle health can help us prevent and treat osteoporosis and sarcopenia. This Special Issue will focus on the role of nutrition in bone and muscle health, mainly in human studies. The scope of the issue will include, but not be limited to, exploring and validating the risk or beneficial factors related to bone and muscle health in relation to traditional nutrients, bioactive food components, specific foods/food groups, and dietary patterns/dietary quality.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
