Special Issue

Dietary Patterns: Do Children with Neurodevelopmental Disorders Eat Differently? (2nd Edition)

Message from the Guest Editors

Eating and feeding disturbances in children are understudied health conditions that can lead to physical and psychosocial comorbidities. Eating disorders are mainly characterized by atypical eating behaviors, associated emotional and cognitive alterations, and dysregulated body weight. However, there is a lack of research on feeding and eating disorders in children with neurodevelopmental disorders, and we hope that this Special Issue will serve to fill existing knowledge gaps. We encourage all researchers involved in the world of neurodevelopmental disorders (occupational therapists, nutritionists, nurses, psychologists, physicians, and epidemiologists) to submit their research to this Special Issue and shed light on this unknown, interesting, and relevant topic. We welcome related original research articles, clinical studies, and review articles that focus on nutrition, diet, eating behaviors, and/or routines around food in relation to neurodevelopmental childhood disorders, as well as dietary evaluations in children with neurodevelopmental disorders. Thank you for considering this Special Issue as an outlet for your research on the above-mentioned topic.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
 University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
 Preventive Medicine Service, Centro Hospitalario Universitario
 Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
