

## Special Issue

# Dietary Supplements and Nutritional Considerations for Tactical Populations

### Message from the Guest Editor

Military personnel, along with firefighters and law enforcement, are often referred to as “Tactical Populations” or “Tactical Athletes”. Due to the nature of their work, tactical populations are often put under unique stressors not experienced in other athletic settings. For instance, military personnel often are required to move under, over, and around objects in combat gear, or may be out in the field for multiple days, with few rations available. Failure to perform in these intense situations may result in injury, or even death. Due to the unique mental and physical demands of tactical populations, there is significant interest in how best to utilize novel nutritional strategies and supplements to support or improve situational performance and recovery. For this Special Issue regarding “Dietary Supplements and Nutritional Considerations For Tactical Populations”, I invite authors to submit their original investigations or review articles. I look forward to receiving your contributions.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
