

## Special Issue

# Nutrition–Microbiome Interaction in Healthy Metabolism

### Message from the Guest Editors

The intricate interactions between host nutrition and the gut microbiota play an essential role in regulating host metabolism. The gut microbiota depends on the host intake of nutrients for their own survival. In turn, many gut microbes directly participate in the digestive process, producing various nutrients/metabolites involved in the host metabolism and biology process. Gut-microbiome-based precision nutrition offers promising advancements in the control and treatment of disease at the individual level. This Special Issue aims to present cutting-edge research on nutrition–microbiome interaction in human metabolism. We encourage submissions from microbiome-based nutritional studies, including epidemiological and animal research, that have identified key microbes and microbial metabolites as potential targets for dietary interventions to support and maintain a healthy human metabolism. Potential topics include, but are not limited to, the following:

- Impacts of diet/nutrition on the gut microbiome and human metabolism;
- Effects of diet–microbiome interactions on human metabolism;
- Gut-microbiome-based precision nutrition.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
