

## Special Issue

# Iron Dysregulation and the Role of Iron in Disease Pathogenesis

### Message from the Guest Editor

Iron is an essential nutrient that is used in multiple normal cell functions. Iron dysregulation and iron-induced cell death have been implicated in several disease processes, and we believe there is still a lot of exciting work to be done in discovering how iron is involved in disease and how it can be therapeutically targeted.

As the of the Special Issue ‘Iron Dysregulation and the Role of Iron in Disease Pathogenesis’, I invite you to submit a manuscript to *Nutrients*, one of the most-read and cited research journals in the category “Nutrition and Metabolism”. The objective of this Special Issue is to bring together researchers in the fields of iron metabolism, chronic disease pathogenesis and therapeutics to further understand the role of iron in disease, including cancer, neurodegenerative disorders, pregnancy and chronic airway diseases.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
