

# Special Issue

## Infant Nutrition and Feeding

### Message from the Guest Editor

Nutrition during infancy establishes growth patterns and development that moderate short-term and long-term health and life expectancy. Human milk (HM) is indisputably the gold standard for feeding all neonates. Its unique macronutrient composition with optimal bioavailability and the myriad bioactives exerting health promotion and diseases such as necrotizing enterocolitis (NEC), bronchopulmonary dysplasia (BPD), retinopathy of prematurity (ROP), and bacterial sepsis can be avoided with appropriate feeding throughout life. This Special Issue welcomes manuscripts of all original research, meta-analyses, or reviews on infant nutrition and infant feeding.

### Guest Editor

Dr. Charitharth Vivek Lal

Division of Neonatology, Department of Pediatrics, University of Alabama at Birmingham, Birmingham, AL, USA

### Deadline for manuscript submissions

closed (19 May 2023)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
