

## Special Issue

# Water and Other Fluids in Nephrolithiasis

### Message from the Guest Editor

Many things have been said and written on preventive medical and non-medical treatments for nephrolithiasis, but no recent Special Issue has focused on hydration, which however represents the cornerstone to limit the recurrence of stones. How should we then position ourselves in 2023? In this Special Issue of *Nutrients* (Impact Factor = 6.706, ISSN 2072-6643) entitled “Water and Other Fluids in Nephrolithiasis”, we invite the experts in the field to give their opinion on this important subject by submitting comprehensive and up-to-date reviews. We also encourage scientists to submit their latest original research papers regarding pediatric and adult patients with nephrolithiasis on this topic, including new tips and tools to increase and monitor hydration in patients.

### Guest Editor

Prof. Dr. Marie Courbebaisse

Service de Physiologie-Explorations Fonctionnelles Rénales, Georges Pompidou European Hospital, AP-HP, Université Paris Descartes, INSERM U1151, Paris, France

### Deadline for manuscript submissions

closed (5 March 2024)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
