Healthy Nutrition and Lifestyle: The Role of the School

Message from the Guest Editors

Children and adolescents spend a lot of time at school. Thus, educational centres can positively influence the present and future healthy nutrition of students, playing a crucial role in promoting their health. Schools play a fundamental role in promoting education and the acquisition of healthy habits in terms of nutrition and physical activity in daily life. Moreover, the characteristics and nutritional offerings of the school canteens will be addressed, and the high expectations and responsibilities placed in the hands of the teachers and canteen monitors will be questioned. The aim of this Special Issue is to show why the school is the ideal setting for promoting the healthy nutrition and well-being of children and adolescents. Accordingly, this Special Issue invites the submission of original research, review articles, and meta-analyses, as well as special reports on recommendations and experiences to apply in the school, including by the managers and people responsible for public health nutrition.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
