Implementing and Evaluating Micronutrient Supplementation Interventions in Low and Middle Income Countries

Message from the Guest Editors

Improving the coverage of micronutrient interventions in LMICs is urgent, given the persistent problem of maternal and child undernutrition combined with environment risks such as climate change and political unrest. Decades of efficacious and effective research has demonstrated the safety and impact of micronutrient interventions in LMICs, with significant impacts on micronutrient deficiencies and improved birth outcomes. Many of these interventions have now been scaled up in different geographies through different delivery models. While there is global recognition that these interventions are efficacious, many unanswered questions exist about how to effectively deliver and scale them across different contexts. Implementation research, with its methods and tools, can help identify, address, and resolve policy and implementation challenges impacting the coverage of micronutrient interventions. Following a summary of the evidence, this Special Issue welcomes papers that document systematic approaches used to improve the implementation and impact of micronutrient policies, programs, and interventions.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
