Special Issue

Antioxidant Nutrients and Bioactive Compounds in the Prevention of Chronic Diseases

Message from the Guest Editor

Consumption of diets containing low levels of nutrients and bioactive compounds characterized as antioxidants is associated with multiple chronic diseases, including but not limited to cardiovascular disease, diabetes, obesity, inflammatory bowel disease, and cancer. Several nutrients and bioactive compounds present in our foods and drinks not only have antioxidant activity but also protect against chronic diseases through a myriad of other mechanisms. Because some of these compounds reach the colon intact, they also impact the microbiome, and through modifications to the populations present there and their metabolism, they have further effects on chronic disease prevention. The goal of papers published in this Special Issue is to share cutting-edge research defining the impact of antioxidant nutrients and bioactive compounds on chronic disease prevention. Original research (cell based, preclinical, and clinical) and critical reviews addressing the impacts of antioxidant nutrients and bioactive compounds on systemic physiology, metabolic pathways, signaling pathways, as well as the transcriptome, metabolome, microbiome, and epigenome are welcomed.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
 University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
 Preventive Medicine Service, Centro Hospitalario Universitario
 Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las
