

Special Issue

Nutrition for Cancer Survivors II

Message from the Guest Editor

Cancer is a major cause of morbidity and mortality worldwide, posing a tremendous burden on both individuals and on society as a whole. Currently, more people are living with and surviving from cancer than ever before, partly due to the positive developments in this field, such as earlier detection and/or better treatment for several cancer types.

Considering the success of the previous Special Issue "Nutrition for Cancer Survivors", we are pleased to announce that we are launching a second Special Issue on this topic. The objective of this Special Issue on "Nutrition for Cancer Survivors II" is to continue to elucidate the relevance of nutrition and other nutrition-related factors, with a focus on the post-diagnosis period and following cancer treatment, with cancer-specific and all-cause mortality, cancer recurrence and survival, as well as with other health-related outcomes, among cancer survivors. The optimal goal is to contribute to the development of evidence-based dietary recommendations tailored specifically to cancer survivors, and to promote the health and well-being of this growing population.

Guest Editor

Prof. Dr. Vasiliki Benetou

Department of Hygiene, Epidemiology and Medical Statistics, School of Medicine, National and Kapodistrian University of Athens, Athens, Greece

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
