

## Special Issue

# Effects of Diet Balance and Nutrition on Metabolic Bone Disease

### Message from the Guest Editors

Metabolic bone disease is an umbrella term encompassing conditions like osteopenia, osteoporosis, osteomalacia and rickets, all which if left untreated can lead to bone fragility and reduced quality of life. In recent years, research has focused on the potential role of nutritional biomarkers and their impact on metabolic bone health and endocrine pathways. In this Special Issue of *Nutrients*, we hope to improve the understanding of the role of specific nutrients and diet as a whole on bone health. We invite papers that address topics ranging from the role of nutrition in mechanistic processes relevant to bone health through to nutritional recommendations aiming to improve the disease course and the management of bone disease.

### Guest Editors

Dr. Elena Nikiphorou

Centre of Rheumatic Diseases, King's College London, London, UK

Dr. Elena Philippou

Department of Life and Health Sciences, School of Sciences and Engineering, University of Nicosia, Nicosia 1700, Cyprus

### Deadline for manuscript submissions

closed (1 July 2022)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
