

Special Issue

Dietary Intake and Eating Behavior in Children

Message from the Guest Editors

Dietary intakes play an important role in nutrition, health, and well-being among children. The complexity of dietary intakes among children is influenced by economics, family structures, cultural issues, and the external environments. All of these issues and the growing complexity of the world's food environment influence the eating behaviors of children. This Special Issue welcomes the many topical areas related to food intake and nutritional status among infants, children, and adolescents. All study designs are welcome within the context of youth, dietary intake, or dietary exposures, as well as methodology developments that improve dietary data collection methods in this age group.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain
