Early Childhood Nutrition for Long-Term Health

Message from the Guest Editor

A healthy lifestyle, including adequate nutrition from the perinatal period to adolescence, is essential for achieving successful pregnancies, child development, healthy growth, and finally for the prevention of non-communicable diseases (NCDs) during childhood and later in life. Furthermore, pregnancy and early childhood are critical periods for establishing eating habits. Dietary behavior before and during pregnancy and the feeding patterns of young children (breastfeeding duration and introduction of solid foods), are associated, for example, with taste preferences and therefore influence whether a diet is beneficial or detrimental to health. By evaluating children's nutritional habits, deficits can be highlighted and awareness of the importance of appropriate nutrition education can be raised. This Special Issue aims to clarify factors that influence dietary behavior from an early age and examine the impact of (in)adequate nutrition on disease prevention in order to promote nutrition education to increase nutritional competence.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
