The Impact of Fasting on Human Health: Which Is the Current Evidence?

Message from the Guest Editors

In the last few decades, the topic of fasting has attracted considerable interest from researchers and scholars. An emerging body of literature is showing the beneficial effects of fasting on human health, both in terms of molecular and cellular mechanisms (using in vitro experimentation and animal models) and clinical outcomes. Different fasting regimens and protocols exist, including a periodic diet, caloric or dietary restriction, dietary manipulation, intermittent/time-restricted circadian fasting, and short-term and prolonged fasting. However, from a methodological standpoint, scientific evidence, and a comparison of the effectiveness of the different fasting regimens, is still missing. Therefore, original investigations and studies on humans, especially randomized clinical trials, are especially welcome in this Special Issue. High-quality reviews, with a focus on systematic reviews and meta-analyses, will be appreciated as well. Dr. Nicola Bragazzi

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
