

## Special Issue

# Innovative Research on Hydration in Health, Disease and Exercise

### Message from the Guest Editor

Over the last few years, there has been a growing interest among researchers to think outside the box and examine the impacts of hydration manipulation in humans through new angles which have barely been touched upon before. For instance, research has recently started to gain some insight into how hypohydration affects glucose tolerance/insulin sensitivity or pain perception. Counterintuitively, following observations and anecdotes derived from the field, it has recently been demonstrated that hyperhydration can be used to accelerate body water losses and therefore improve weight-reduction management for weight-category sports. Furthermore, machine learning, which is a subfield of artificial intelligence, has recently been introduced into the field to distinguish the hydration characteristics of athletes. The goal of this Special Issue of *Nutrients* is to showcase results of studies or novel ideas that push the frontiers of hydration research in health, disease and exercise to a whole new level. Narrative reviews, meta-analyses, technical and perspective papers and original studies with positive or negative outcomes are all welcome.

### Guest Editor

Prof. Dr. Éric Goulet

Faculty of Physical Activity Sciences, University of Sherbrooke,  
Sherbrooke, PQ J1K 2R1, Canada

### Deadline for manuscript submissions

closed (28 February 2023)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
