

## Special Issue

# Innovative Strategies, Methods and Tools for Dietary Assessment in Public Health

### Message from the Guest Editor

Innovative dietary assessment tools and methods are needed in large-scale epidemiological studies to produce the best estimates of individual intake and to better address public health strategies. The goal of this Special Issue, entitled “Innovative Strategies, Methods, and Tools For Dietary Assessment in Public Health”, is to focus on the importance of new dietary assessment approaches to provide more accurate estimates of diet in epidemiological studies. The Special Issue welcomes the submission of original research, narrative reviews, systematic reviews, and meta-analyses to provide public health professionals with a widespread, clear and updated body of evidence on innovative approaches to better investigate the diet–health relationship.

### Guest Editor

Dr. Martina Barchitta

Department of Medical and Surgical Sciences and Advanced Technologies “G.F. Ingrassia”, University of Catania, 95123 Catania, Italy

### Deadline for manuscript submissions

closed (30 June 2022)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
