Micronutrient Deficiencies and Chronic Kidney Disease

Message from the Guest Editor

Deficiencies in various micronutrients contribute substantially to the disease burden in patients with chronic kidney disease. They are among the driving forces of increased morbidity and mortality in this patient cohort. The topic of micronutrient deficiency encompasses a wide range of diseases, including disturbed metabolism and homeostasis of trace elements, minerals, and substrates on one side and vitamin deficiencies on the other. This Special Issue of the *Nutrients* named “Micronutrient Deficiencies and Chronic Kidney Disease” will target this wide variety of conditions. We are soliciting review articles, original work, or meta-analyses presenting an overview of the epidemiology (the magnitude of the problem) and pathophysiology or summarizing state-of-the-art treatment options regarding replenishment. This Special Issue will focus on but not be limited to anemia, bone disease, and cardiovascular health in patients with chronic kidney disease.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
