

## Special Issue

# Effects of Nutrients on Immune and Inflammatory Responses

### Message from the Guest Editor

We would be very pleased to receive from you a manuscript for inclusion in the Special Issue entitled “Nutrients on Immune and Inflammatory Responses,” to be published in *Nutrients*. Manuscripts will be due on or before April 30, 2021. The topic is a very exciting and timely one, and, therefore, I anticipate a very interesting collection of papers that elucidate new understandings of how specific nutrients and/or dietary patterns influence the health and response of the immune system. All experimental approaches are welcome, from basic discovery science to clinical studies and epidemiological investigations. All manuscripts will undergo full peer review. We look forward to receiving your manuscripts. Please feel free to pass this opportunity on to colleagues working in the field of nutrition and immunity, as we hope to have a large and broad collection of manuscripts for this edition.

---

### Guest Editor

Prof. Dr. A. Catharine Ross

Department of Nutrition, Institute for Advancing Health through Agriculture, Texas A&M University, College Station, TX 77843, USA

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
