

# Special Issue

## Nutrigenomics

### Message from the Guest Editor

Following the completion of the mapping of the Human Genome, a cumulative number of studies have been performed to identify genetic factors that may explain the inter-individual variability observed in the metabolic response to specific diets. Accordingly, numerous genetic variations have already been identified as relevant determinants of the heterogeneous response to nutrient intake. Although most findings on this topic still have not delivered their fully-expected potential in terms of translation and application to clinical practice, research is still ongoing and nutritional recommendations, solely based on genetic background, have emerged. Gene–diet interactions have also been frequently investigated in association studies seeking risk factors predisposing to chronic societal diseases such as obesity, type 2 diabetes or cardiovascular diseases. Further research is focused on revealing the underlying molecular mechanisms behind these associations allowing to interpret their biological significance and potential clinical applications. The current Special Issue aims to welcome original works and literature reviews in the field of nutrigenomics/nutrigenetics.

### Guest Editor

Prof. Dr. Marie-Claude Vohl

Institute of Nutrition and Functional Foods (INAF), School of Nutrition,  
Laval University, Québec, QC G1V 0A6, Canada

### Deadline for manuscript submissions

closed (31 May 2018)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
