

Special Issue

Diet and Nutrition for Hepatitis

Message from the Guest Editor

We are pleased to announce this special issue on “Diet and Nutrition for Hepatitis”. The liver is one of the main organs that maintain nutritional status. The impairment of liver function results in varieties of malnutrition. Therefore, the assessment of nutritional disorders is absolutely essential for the management of liver disease. The nutritional support can restore an impaired nutritional balance and improve the unfavorable prognosis in such patients. Recent advances in molecular biological techniques prompted us to elucidate the correlations between nutritional status and genomics, epigenetics, microRNAs, microbiota or immunologic disorders. The special issue welcomes original articles based on experimental or clinical studies that mainly focused on the relationship between the nutritional status and its genetic and immunologic background in liver disease. The special issue also welcomes reviews on current trends in the nutritional management of liver disease. We expect many interesting and relevant articles to be submitted.

Guest Editor

Prof. Dr. Takashi Himoto

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
