Nutrition and Non-alcoholic Fatty Liver Disease: Gene Storm

Message from the Guest Editors

Recently, genome-wide association studies have made it possible to uncover the main common genetic determinants of NAFLD (Non-alcoholic fatty liver disease) pathogenesis and progression. In this context, nutrition is major key factors to prevent and manage NAFLD. Nutritional habit modifications, in terms of overall energy balance, diet macro and micronutrients composition, and quality, have shown an important therapeutic role. Recently, the interest in nutraceutical compounds has increased, and the scientific literature reports an inverse association between the consumption of nutrients rich in antioxidants and the risk of NAFLD development and mortality. The interplay between genes and nutrients in this context seems to have a crucial role in the comprehension of the NAFLD pathological picture and may help to identify new therapeutic possibilities. We invite clinicians and researchers to submit original articles and reviews to this Special Issue of *Nutrients* entitled “Nutrition and Non-Alcoholic Fatty Liver Disease: Gene Storm”. We look forward to your valuable contributions.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
