

## Special Issue

# Nutrition and Fitness: Mental Health

### Message from the Guest Editor

*Mens sana in corpore sano* (a healthy mind in a healthy body) is a Latin phrase taken from Giovenale (Satire, X, 356) that remains relevant and is supported by today's data regarding genetics and nutrition, and their contribution to mental health. The purpose of this Special Issue on "Nutrition and Fitness: Mental Health" is to provide an update on the latest evidence regarding the association between nutrition, physical activity (and inactivity) and physical fitness and the mental health of children, adolescents, and adults. Particularly, papers (reviews and clinical or experimental studies) dealing with the association between nutrition, physical fitness and mental health both in general and with regard to specific mental disorders, and nutrients and physical activity as agents for prevention, treatment, or augmentation of treatment for mental disorders, will be included.

### Guest Editor

Dr. Riccardo Dalle Grave

Department of Eating and Weight Disorders, Villa Garda Hospital,  
Garda, Italy

### Deadline for manuscript submissions

closed (28 February 2020)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
