

## Special Issue

# Nutritional Assessment and Chronic Disease

### Message from the Guest Editor

For this Special Issue on “Nutrition Assessment and Chronic Disease”, we seek articles (i.e., research papers, short communications, reviews, and meta-analyses) from academia and clinical settings that address the important themes related to effective nutritional assessment for identifying, treating, and/or attenuating chronic disease, such as:

- Identifying gold standards for subjective and objective data points;
- Developing best practices for obtaining feedback on the selection interventions;
- Identify research gaps in relation to nutritional assessment and chronic disease;

Effective ways to train future clinicians (undergraduate and graduate students, current clinicians) on how to critically think through and complete a nutritional assessment.

---

### Guest Editor

Prof. Dr. Ingrid Lofgren

Department of Nutrition and Food Science, University of Rhode Island, Kingston, RI, USA

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
