

## Special Issue

# Pediatric Nutrition in Different Countries

### Message from the Guest Editor

Dietary intake in childhood can affect children's physical and cognitive development. It also has health consequences later in life. The goal of this Special Issue, "Pediatric Nutrition in Different Countries", is focused on the different food patterns between countries, underlining the differences of genetic background, household environment and dietary pattern. Specifically, the aim is to stimulate pediatricians and dieticians to share their nutrition programs to highlight the importance of nutritional education, which can be an efficient way to improve nutrition knowledge, attitudes and healthy eating behaviors. The contributions may include review articles, systematic reviews, clinical cases, retrospective case studies, and proposals for new nutrition education programs appropriate for most children.

### Guest Editor

Prof. Dr. Maria Immacolata Spagnuolo

Department of Pediatrics, University Federico II of Naples, Via Sergio Pansini 5, 80131 Naples, Italy

### Deadline for manuscript submissions

closed (22 July 2022)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
