

## Special Issue

# Bioactive Components and Immune Regulation Mechanism

### Message from the Guest Editor

Medicinal and aromatic plants, shortly termed MAPs, have been used by humans for centuries. MAPs are a huge category of plant species, which have in common their aptitude for supplying substances, i.e., medicines and flavors. Many studies have found that the nutrients or bioactive components in plant extracts are beneficial to the human body and can treat diseases. The etiology of arthritis is mainly related to autoimmune reaction, infection, metabolic disorder, trauma, degenerative lesions, and other factors. A large number of bioactive compounds have been found, which have broad application prospects. At present, there are a variety of botanical preparations for the treatment of rheumatoid arthritis, such as *Tripterygium wilfordii*, *Sinomenium*, and so on. It is hoped that more nutrition or the bioactive components in plant extracts can be used in the treatment of various types of arthritis.

In this Special Issue, we welcome original research and literature reviews in relation to nutrition or the bioactive components in plant extracts and various arthritis.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
