

Special Issue

Sugar and Sugar Alternatives— Consumption, Metabolism, and Weight Management

Message from the Guest Editor

The aim of this Special Issue is to collate current evidence for such diverse effects of sugar and sugar alternatives in the context of influencing public health and clinical practice. Original articles (including prospective, retrospective, and observational trials as well as articles pertaining to policy development and implementation), as well as systematic reviews (with or without meta-analyses), will be considered. Any submissions reporting the use of animals for scientific purposes must submit a completed ARRIVE 2.0 checklist.
