

## Special Issue

# Dietary Supplements in Cardiovascular and Metabolic Diseases

### Message from the Guest Editors

There has been growing interest and evidence concerning the effects of dietary supplements on cardiovascular and metabolic disorders. The purpose of this Special Issue is to gather high-quality research papers with a solid research setting and/or translational potential on this topic, in order to create an up-to-date, systematic overview that examines, in detail, the functional role of dietary supplements in cardiovascular and metabolic diseases. We are interested in both clinical and pre-clinical investigations testing novel hypotheses that can advance the field. Novel therapeutic hypotheses and medicinal chemistry endeavors toward novel drug development are also encouraged. In this Special Issue of *Nutrients*, we are making a call to action to motivate researchers to submit their invaluable studies on this intriguing topic. This Special Issue welcomes the submission of manuscripts which either include evidence-based original research or reviews of the scientific literature.

### Guest Editors

Prof. Bruno Trimarco

Università degli Studi di Napoli Federico II, Naples, Italy

Prof. Dr. Gaetano Santulli

1. Department of Medicine, Fleischer Institute for Diabetes and Metabolism (FIDAM), Einstein-Mount Sinai Diabetes Research Center (ES-DRC), Albert Einstein College of Medicine, New York, NY 10461, USA

2. Department of Advanced Biomedical Science, "Federico II" University, International Translational Research and Medical Education Consortium (ITME), 80131 Naples, Italy

3. Department of Molecular Pharmacology, Albert Einstein College of Medicine, New York, NY 10461, USA

### Deadline for manuscript submissions

closed (31 August 2023)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
