

Special Issue

The Science of Vegetarian Nutrition and Health

Message from the Guest Editor

The purpose of this Special Issue, “The Science of Vegetarian Nutrition and Health”, is (1) to identify biomarkers of intake of plant foods, (2) to evaluate nutrient adequacy and dietary sources of protein, fatty acids or phytochemicals in vegetarian populations, and (3) to identify novel approaches to evaluating vegetarian diets, with the goal to advance vegetarian nutrition science. We know from the literature the health benefits of vegetarian diets through studies that examine the associations of vegetarian diets with disease, mortality, and clinical intermediates of disease (e.g., body weight, BMI, lipids, inflammation). However, the definition of what a vegetarian diet is remains elusive. Combining both intake and biomarker data will add depth to the definition of what a vegetarian diet is, and, as such, have implications on study design that may advance vegetarian nutrition science more expeditiously.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
