

Special Issue

How to Prevent Obesity and Inflammatory Disease 2025-2026

Message from the Guest Editor

Obesity's complex inflammatory landscape requires a multidisciplinary approach. This Special Issue seeks to publish cutting-edge original research and insightful reviews that explore the cellular and systemic mechanisms by which lifestyle, dietary modifications, and mindset interventions can prevent or treat obesity-related inflammatory diseases. We welcome contributions that illuminate the intricate crosstalk between diverse physiological systems, including the gastrointestinal tract, brain, liver, adipose tissue, and bone.

Guest Editor

Dr. Sara Baldassano

Dipartimento di Scienze e Tecnologie Biologiche Chimiche e Farmaceutiche, Università degli Studi di Palermo, 90133 Palermo, PA, Italy

Deadline for manuscript submissions

31 August 2026
