

Special Issue

Offshore Renewable Energy and Related Environmental Science

Message from the Guest Editors

This Special Issue will focus on offshore renewable energy, including wind, wave, tidal, and thermal technologies, along with their benefits in reducing carbon emissions and promoting economic growth. It will also cover environmental concerns such as noise pollution, habitat destruction, and effects on marine life. Additionally, it will include multidisciplinary assessments of interactions between species, ecosystems, and infrastructure, emphasizing environmental science in understanding these impacts. Research contributions that examine changes in marine ecosystems, develop mitigation methods, and explore ways to balance energy goals with the protection of nature will be especially welcomed.

Guest Editors

Prof. Dr. Yordan Garbatov

Centre for Marine Technology and Ocean Engineering (CENTEC),
Instituto Superior Técnico, Universidade de Lisboa, 1049-001 Lisbon,
Portugal

Dr. Elif Oguz

Civil Engineering Department, Middle East Technical University, Ankara,
Turkey

Dr. Emre Uzunoglu

KONGSTEIN, Hamburg, Germany

Deadline for manuscript submissions

1 September 2026

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Beatriz Morales-Nin
Mediterranean Institute of Advanced Studies CSIC-UIB, E-07122 Palma
de Mallorca, Spain

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), AGRIS, and
other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 38.6 days after
submission; acceptance to publication is undertaken in 5.5
days (median values for papers published in this journal in
the first half of 2025).

Journal Rank:

CiteScore - Q2 (Oceanography)
